

Monmouth County USLA

Dear Steve,

I am writing as a representative of the Monmouth County United States Lifesaving team, from New Jersey.

During the first week in August, the United States Lifesaving Association holds a competition in various parts of the country. In 2004 competition was held in Daytona Florida. Our Monmouth County chapter had the pleasure and benefits of having you work on several of our athletes. There were four of us who went on during that competition to become national titleholders in various competitive arenas. Speaking for our team, many felt enhanced performance in our individual events, and attained many "personal bests" as well as winning more national titles than we began with.

Steve was professional, informative, and beneficial to our team and would welcome him to future competitions.

I highly recommend Steve for athletes who desire the goal of optimal performance in any type of competition.

Sincerely,

A handwritten signature in blue ink that reads "Janet Carbin".
